

# FLYERS

## More Info:

Announce upcoming events with our high-quality flyers. Whether posted on a bulletin board or handed out to passersby, flyers are used by businesses of all sizes to promote their services.

Flyers can be used for marketing products and services or highlighting venues such as nightclubs, clubs, and parties. They can also be used to print invitations for special occasions such as weddings, baby showers and birthdays.

Choose one of our Glossy stocks for a beautiful shine, the 70 lb. Opaque Smooth White for a textured look, or one of our Matte stocks for a more subdued and vintage look.

For the 14 pt. Gloss paper stock, a High Gloss UV Coating will be applied to the color sides, unless High Gloss UV Coating Front Only is selected. High Gloss UV Coating will not be applied to the back if you select Blank Back. High Gloss UV Coating makes the products more durable, so your flyers will last longer. You cannot write or print on products with High Gloss UV Coating.

Our High Gloss UV Coating Front Only option may produce variation in color and brightness between the front and back of your product.

Due to the fact that we print in large volumes, different paper types may have different quantity options. Aqueous coating will be applied to 250+ quantity orders printed on 80 lb. Gloss Book, 100 lb. Gloss Book, or 100 lb. Gloss Cover paper stocks.

Quantities of 100 and fewer printed on 80 lb. Gloss Book, 100 lb. Gloss Book, or 100 lb. Gloss Cover paper stocks will be printed digitally with no coating.
